Recalling the the World Health Organization 63rd world health assembly(2010)“Reducing the harmful use of alcohol by effective policy measures and by providing a relevant infrastructure to successfully implement those measures is much more than a public health issue”,

Recalling WHO resolution 56.1 (2003) "Increasing the control of tobacco substances through price and taxation measurements”,

Recognizing that many countries are still suffering of under age consumption of alcohol and tobacco,

Recognizing that some governments are not able to control the black market,

Expressing it is gravest concern about tobacco being the 1st main factor of preventable deaths and alcohol being the third,

Deploring the dramatic increase in worldwide tobacco consumption

Keeping in mind that other nations are not intended to lower their production of alcohol and tobacco,

1. Encourages other nations to setup recovering campaigns in which they encourage and motivate citizens for quitting unhealthy daily actions such as the “let's stop smoking together” campaign set up by the the delegation of Poland;

2. Stresses on the enforcement of legislative measures on alcohol and tobacco (drink driving policies and countermeasures);

3. Urges Nations Governments to be able to censor the promotions of tobacco and alcohol on platforms of advertisements such as: radios, billboards and televisions;
4. Enacts taxations on import and export of alcohol and tobacco and use its profits for the payment of hospital fees for people who are addicted, for the cover of environment damages (caused by transport) an for a sustainable development of farmers improving their technology advantages.

5. **Calls** upon nations to increase taxations on psychotropic drugs of its profits as it will be used for anti-tobacco health organization;

6. **Encourages** spreading awareness on the harmful effects of alcohol and tobacco (especially for minors);

7. **Recommends** introducing a licensing system for the sale of alcohol and regulations for the issuance of license which can ensure that serving establishments meet certain standards;

8. **Encourages** eliminating exposure to tobacco smoking and reducing the harm associated with tobacco smoking establishing free smoking areas;

9. **Calls** upon nations to take certain measures to keep improving the quality of alcohol and tobacco;

10. **Calls** on raising the legal medium age of users: 18 for tobacco and <8% alcohol and 21 for >8% of alcohol per liter;

11. **Recommends** using at least 3% of the taxation profits for helping undeveloped countries replacing the production of tobacco with other industry production, making sure that their economy won’t decrease;

12. **Recommends** for countries with black markets to use an amount of the taxes of the exports, imports and also the production of alcohol and tobacco to find the amount of illegal goods in the market, as the goal of preventing more illegal goods to enter the market

13. **Encourages** countries with black markets to use the increase of taxes profits also for creating anti-black market specialized police forces;

14. **Stresses** the establishment of a series of pictorial health warning appear on cigarette pack;

15. **Stresses** on establishing a base price for tobacco and alcohol that a country decides according to their economy.
